

COMMERCIAL/INDUSTRIAL PRESCRIPTIVE LIGHTING APPLICATION

Applications will only be processed if fully completed and signed. Once completed, submit with proof of purchase, and return to your electric utility provider. Contact your utility with any questions.

1. Customer Name: _____ Electric Utility: _____

Customer type (check one): Industrial/Agricultural Commercial Residential

Account #: _____ Phone #: _____

Address & City: _____

Installation Address & City (if different from above): _____

Attach a completed W-9 form (incentive will not be processed unless a W-9 form is attached)

2. Self-Installed* or Name of Contractor: _____

Address & City: _____ Phone #: _____

Lighting must be listed by Design Lights Consortium (DLC) as defined in Terms & Conditions.

*For self-installations, the incentive is limited to the lesser of the 2022 Incentive values printed below or 50% of purchase price not including taxes or shipping. If price times 50% is less than the 2022 Incentive value, the incentive equals purchase price times 50%.

Lighting Equipment	LED Wattage <small>Verify new fixture wattage/set point corresponds with incentive</small>	2022 Incentive (A)	Quantity	*For Self-Installations		Subtotal
				Purchase Price/each (B)	Incentive <small>Lesser of A or 50% of B</small>	
Linear Fluorescent (Replaces fluorescent) 2 ft. U-shape comparable to 4 ft. straight tube When original fixture is not completely removed	NEW LED Fixture	9 - 22 watts LED	\$5	A web search by brand and model number returns vendors selling the LED product. Most manufacturers and vendors link the product's specification sheet on the product listing. If not, verify LED product is "DLC Listed by entering model # into (Home - DesignLights) website. Create a login access if necessary. In "Find Qualified Products", select "solid state lighting" from drop down. Enter model #. If model # is not listed, lighting is not DLC listed.		
		23 - 45 watts LED	\$10			
		46 - 68 watts LED	\$15			
		69 watts or greater LED	\$20			
	Retrofit Lamp, Tube, Panel or Kit	9 - 22 watts LED	\$2			
		23 - 45 watts LED	\$4			
		46 - 68 watts LED	\$6			
		69 watts or greater LED	\$8			
High Bay, Exterior Dusk-to Dawn Replaces: • Mercury Vapor • Metal Halide • High Pressure Sodium • Incandescent (300 watts or greater)	NEW LED Fixture	9 - 65 watts	\$20	Includes 4, 6 and 8-lamp T5HO and 6, 8, 10 and 12-lamp T8 or T12 fluorescent high bay fixtures		
		66 - 130 watts	\$40			
		131 - 240 watts	\$60			
		241 watts and greater	\$80			
	Retrofit Lamp or Kit	9 - 65 watts	\$8			
		66 - 130 watts	\$16			
		131 - 240 watts	\$24			
		241 watts and greater	\$32			
LED Exit Signs	Does not require DLC listing	Under 8 watts	\$10			
Fluorescent case lighting for freezer/refrigerator		5' or 6' LED	\$20			
Unsensor control		Occupancy sensor	\$15			

Additional Information:

- Existing facilities only; new construction does not qualify.
- Downlighting, LED-to-LED, and upgrades for fluorescent lamps that are less than three feet in linear length do not qualify.
- By signing below, customer agrees to having met the Terms & Conditions listed on the back of this application.

Contractor: _____
(if applicable) Print Name Signature Date

TERMS & CONDITIONS

PROOF OF PURCHASE: Sales receipt(s) or invoice(s) itemizing the new equipment and indicating the make, model, wattage, purchase date, and vendor must accompany each energy efficiency incentive application.

INCENTIVE OFFER: This energy efficiency incentive program covers equipment during the program year in which it is purchased and installed. Details of this program, including incentive levels, are subject to change without notice. The electric utility reserves the right to limit incentives.

ELIGIBLE EQUIPMENT: Equipment must be new, permanently installed, and operational LED technology at the customer's existing premise. With exceptions for exit lighting, occupancy sensor controls and refrigerated case retrofit lighting, all new fixtures, retrofit lamps, tubes, and retrofit kits must be standard or premium-listed by Design Lights Consortium (DLC) to ensure quality standards. Incentive values are based on the product's primary use as identified in its DLC listing. Upgrades to recessed or downlighting, compact fluorescent and linear fluorescents lamps less than three feet in length do not qualify. Incentive is limited to 50% of purchase price before sales tax and shipping on self-installs*. Upgrades to any portion of existing fluorescent fixtures are deemed Linear Fluorescent upgrades. Existing premises have previously received permanent, electrical service for twelve (12) months or more. **New construction and/or additions do not qualify.**

ISSUING INCENTIVES: Equipment must be purchased and installed before an energy efficiency incentive is issued. Falsifying any information may lead to cancellation of this and future incentive applications, a claim by the electric utility for the return of any incentive, and/or referral for prosecution. Please allow 45 days for delivery of incentives. Submitting an application with incomplete or missing information may delay processing of the incentive.

APPROVAL & VERIFICATION: Incentives exceeding \$5,000 require approval by the electric utility before purchase or installation. The electric utility reserves the right to verify sales transactions and inspect all lighting projects prior to and after installation.

TAX LIABILITY: Neither the electric utility nor Nebraska Public Power District are responsible for any tax liability imposed on the customer as a result of the energy efficiency incentive.

ENDORSEMENT: Neither the electric utility nor Nebraska Public Power District endorse any particular manufacturers, products, or system designs in promoting this program. Equivalent products must be pre-approved by the electric utility and Nebraska Public Power District.

DISPOSAL: The customer/contractor is responsible for the proper disposal and/or recycling of any waste generated as a result of this project, including the disposal of fluorescent lamps (which contain mercury) and ballasts suspected of containing PCBs. (Any fluorescent ballast dated pre-1979 should be considered to contain PCBs unless otherwise labeled.)

SAFETY & BUILDING CODES: The customer/contractor agrees that each measure complies with all federal, state, and local safety, building, and environmental codes. All products must be UL-listed and installed per manufacturer's instructions.

DISCLAIMER OF WARRANTIES: Neither the electric utility nor Nebraska Public Power District warrant the performance of any equipment either expressly or implicitly. Contact the supplier or contractor for details regarding equipment warranties.

ENERGY BENEFITS: The Utility is entitled to 100% of the energy benefits associated with the implemented Energy Conservation Measure, excluding the value of energy cost savings realized by the Customer, but including all rights to all associated energy, capacity, reserves, and emissions. The Customer agrees to provide the Utility with such further documentation as the Utility may request to confirm the Utility's ownership of such benefits.
